

CLEAN-SWEEP™ SPROCKETS

DEFLECTS BUILDUP AND LENGTHENS LIFE!

Clean-Sweep™ sprockets patent pending

Introducing our new innovative line of Clean-Sweep™ sprockets. Clean-Sweep sprockets are designed to deflect product buildup accumulated on your conveyor's drive. This means that there is less of a chance for product loss & carryout, belt skipping due to buildup, and belt breakage due to incorrect contact with the sprocket teeth. Clean-Sweep sprocket's tooth chamfer is machined to reduce drive friction and can lengthen belt life.

- Eliminates belt skipping due to product buildup
- Deflects product buildup at the drive
- Lowers product carryout
- Reduces drive friction, lessening belt wear
- Easy-to-clean in place design
- Engineered specifically for use with our Versa-Link® and Flat-Flex® conveyor belts
- Direct replacement for our standard sprockets
- Available in stainless steel or PEEK materials
